

Guide to State Regulations Affecting Freestanding Ambulatory Surgery Providers in Maryland*

**Rex W. Cowdry, M.D.
Executive Director**

Annual Maryland Freestanding Ambulatory Surgical Facility Survey

1. All Maryland non-hospital ambulatory surgery providers are required to complete the Maryland Health Care Commission's (MHCC's) annual *Maryland Freestanding Ambulatory Surgical Facility Survey*. The survey is conducted in the second quarter of the year and surveys the preceding calendar year. The survey is Internet-based and is completed and submitted online.
2. Ambulatory surgery providers should begin collecting necessary data as soon as surgical cases are performed at the center in anticipation of completing the survey. Providers are responsible for submitting data for any part of the year the center is operational. If the center closes mid-year, please make arrangements with MHCC to complete the survey. A list of the survey data fields is available from the MHCC upon request.

Developing New Ambulatory Surgery Capacity

1. Developing any new ambulatory surgery capacity in Maryland requires obtaining, from MHCC, a Certificate of Need (CON) or a written determination stating that your proposed center does not require a CON. Developing a facility with two (2) or more operating rooms requires a CON. Please contact Paul Parker, Chief, CON at 410-764-3261 for additional information on filing a CON application. A physician's office seeking to establish one operating room may not need a CON, but requires a determination of coverage under the CON rules. To begin the process, please refer to the Commissions website <http://mhcc.maryland.gov/> , For information on filing a request for determination of coverage go to http://mhcc.maryland.gov/certificateofneed/amsurg/con_amsurg.pdf (See COMAR 10.24.01.05).
2. Determination letters are effective for two (2) years from the date the letter is issued. If the operating room capacity is not implemented within two years, a new determination letter must be obtained from MHCC.
3. If your project includes new construction, DHMH, Office of Plans Review, can review your plans to determine compliance with all state licensure and federal certification regulations.

Making Changes to Your Plans Before Opening

You must notify MHCC in writing 45 days in advance of making any of the following changes to your plans to develop ambulatory surgery capacity (See COMAR 10.24.01.05).

Examples of the types of changes requiring notification include;

- Change in ownership
- Change in legal structure
- Change in floor plan
- Change in location
- Change in operating and/or procedure room capacity

Opening Your New Surgery Center

1. All ambulatory surgery centers seeking third party reimbursement for a facility fee must obtain a license from the Office of Health Care Quality. A determination of coverage letter or a CON from MHCC is required by OHCQ in order to obtain a license (see COMAR 10.05.05).
2. The licensing and certification process requires:
 - a. Medicare certification;
 - b. Fire Marshall Survey; and
 - c. Licensing survey

Making Changes to Your Existing Ambulatory Surgery Center

- 1 You must notify MHCC and OHCQ in writing of the following planned changes to your existing ambulatory surgery center at least 45 days prior to implementation of any of these changes (see COMAR 10.24.01.05)
 - a. Center name;
 - b. Specialties provided;
 - c. Ownership;
 - d. Addition of new physicians;
 - e. Legal structure;
 - f. Closure of surgery center;
 - g. Change in floor plan; and/or
 - h. Change in surgical capacity

Moving or Expanding Your Ambulatory Surgery Center

1. If you are planning to move your center to another location and/or are considering a change in operating room capacity, you must apply to MHCC for a CON or, in the case of a single operating room facility a new determination of coverage, at least 45 days in advance (See COMAR 10.24.01.05). Increasing operating room capacity will require a CON if the facility has one or more operating rooms.
2. You must also contact OHCQ as soon as possible before your move. Please notify OHCQ with an effective date of the move to schedule an on-site inspection and to arrange for a replacement license.
